Inventory Return Request Form

Please contact your Territory Sales Manager before returning any merchandise to LDG

Returns must be in saleable condition and include all original product packaging when possible. We reserve the right to levy a 10% restocking fee for products returned in less than saleable condition. After contacting your Territory Sales Manager, please include this completed form with your return. This will help expedite the return & crediting process.

Note: Items returned for manufacturing defects (such as crooked stems, finish issues, or any issue that would have been present when the product left the factory) are accepted as warrantied returns. All returns are inspected upon receipt – if it's determined that the issues experienced with the product are not manufacturer defects, they will not be accepted as a warrantied return.
